

SAFE JOURNEY

SAFE SUMMER SEAT CHECKS

Car Seats Save Lives!

In passenger cars, car seats reduce the risk of fatal injury by 71% for infants and by 54% for toddlers.

In 2020, more than a third (38%) of children who died while riding in passenger vehicles were unrestrained.

Misuse rate of safety seats is estimated at 46%. Almost half of car seats/booster seats are not installed correctly.

Having your car seat installation checked is a quick, free, and an important way to have peace of mind about your child's safety.

Every Thursday in July, car seat technicians will be available at the Safe Journey Fitting Station at designated times for safety checks.

Together, we can make this summer as safe as possible!
